Front End Progress Report

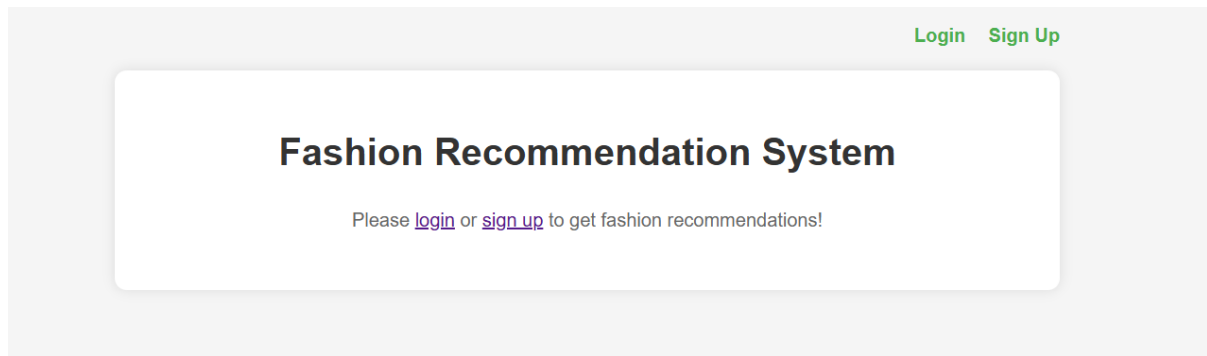

Completed

Page 1: Home Page (index.html)

Brief description of the functionality:

The Home Page serves as the landing page for users. It provides navigation options such as Login, Signup, and links to explore the fashion recommendation service.

Relevant Screenshot:

Page 2: Login Page (login.html)

Brief description of the functionality:

Allows existing users to securely log into their accounts using a username and password. Displays error messages if login credentials are incorrect.

Relevant Screenshot:

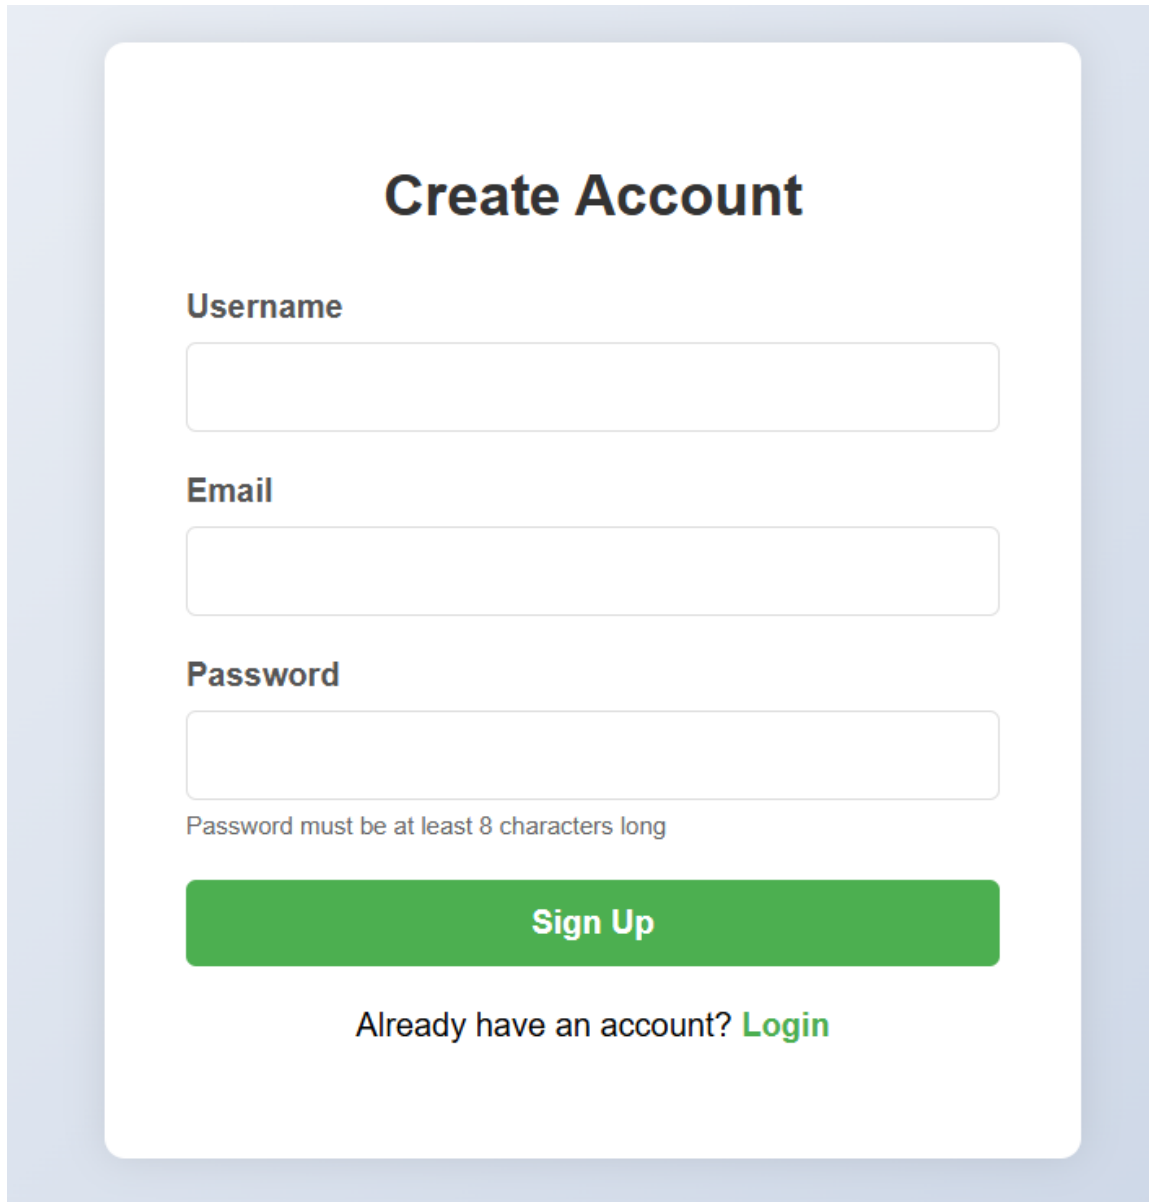

The screenshot shows a login interface on a light blue background. A white rounded rectangle contains the following elements: a bold heading 'Welcome Back!', a label 'Username' above a text input field, a label 'Password' above another text input field, a green button with the text 'Login', and a line of text 'Don't have an account? Sign up' where 'Sign up' is a green link.

Page 3: Signup Page (signup.html)

Brief description of the functionality:

Enables new users to create an account by submitting a unique username, email, and password.
Checks for existing accounts to prevent duplicates.

Relevant Screenshot:

A screenshot of a 'Create Account' form. The form is centered on a light blue background. It has a white background with rounded corners. The title 'Create Account' is at the top in a bold, dark blue font. Below it are three input fields: 'Username', 'Email', and 'Password', each with a label above it. The 'Password' field has a note below it: 'Password must be at least 8 characters long'. At the bottom of the form is a green 'Sign Up' button. Below the button is a link: 'Already have an account? Login'.

Page 4: Recommendation Results Page (results.html)

Brief description of the functionality:

Displays personalized fashion recommendations after users submit their gender, weather, and occasion preferences. Includes images and outfit details.

In Progress

Page 1: Recommendation Form Section

Brief description of the functionality:

A form to collect user inputs such as gender, weather conditions, and occasion to provide fashion recommendations. Currently functional but UI/UX improvements are ongoing.

Page 2: Profile Page (Planned Feature)

Brief description of the functionality:

A future page intended to show user preferences and allow updates to saved favourite styles and colors. This will enhance personalization once implemented.
